

# MÄRTENS CLEANER –

## FOR SILICON AND PU COATINGS

**MÄRTENS CLEANER** is a mildly alkaline, ready-to-use multipurpose cleaner that removes stains caused by oil, grease and similar contaminants quickly, safely and thoroughly. It is the perfect agent for cleaning conveyor belts with a PU or silicon coating.

### Ingredients

- < 5% phosphate
- < 5% anionic surfactant,
- < 5% nonionic surfactant, methylisothiazolinone, benzisothiazolinone and colourants.

### Packaging

- 0.5-l modular PET bottle with silver spray trigger; each box contains 15 bottles

### Application

**MÄRTENS CLEANER** is applied undiluted using the spray nozzle, a cloth or a soft sponge. Leave to act for a short time before rinsing off thoroughly. Check that material is compatible before applying the cleaner. Do not use in combination with other cleaners. Check that the subsurface is compatible before applying. Store product in frost-free place.

### Hazard warnings:

- H319: causes severe irritation to the eye

### Keywords

- Caution

### Hazard pictogram

GHS07: Exclamation mark

### Safety instructions

- P102: Keep away from children.
- P264: Wash hands thoroughly after use.
- P280: Wear protective gloves/protective clothing/eye protection/face protection.
- P305+351+338: **If cleaner gets into eyes**, rinse out carefully with water for a few minutes. Remove any contact lenses if possible. Continue rinsing.
- P337+313: If eyes are still irritated, seek medical advice or medical assistance

### Notes

The description and instructions for use on our information sheets are based on practical experience. Since we are unable to check all uses for the cleaner or foresee all circumstances for its use, we cannot guarantee that you will be able to achieve the desired result with the cleaner. We accept no liability for any damage caused by its use. However, this is not the case if it can be proven that any such damage is caused by incorrect composition or properties of the product.

# STRIKE!

Our product groups at a glance:

**ROD NETWORK BELTS:** Made in music wire, stainless steel or K2390 steel, our rod network belts offer you all the advantages of open grid design and precise belt run.

- Rod network belts are among the most popular conveyor solutions.
- Small deflection radii
- Grid structure for free liquid and air flow
- Guided by various means

**SILICONE MOULDING BELTS:** Märtens silicone moulding conveyor belts are available with customised surface structures and features tailor-made for your products.

- The basis for your product ideas.
- Temperature resistant up to 180° C
- Excellent release properties
- Shaped and structured according to customer specifications

**METAL CONVEYOR BELTS:** Our metal conveyor belts made from round or flat wire spirals are designed for universal use.

- These multi-purpose conveyors are particularly suitable for high-temperature applications.
- With looped or welded belt edges
- Permeable and temperature resistant
- Made in stainless steel

**TIMING BELTS:** Made of thermoplastic or duroplastic polyurethane, they allow for precise conveyance

- They are particularly suitable in cases where every millimetre counts.
- Exact conveyance
- Straight running
- Diverse designs

**PLASTIC CONVEYOR BELTS:** We offer conveyor belts with a variety of fabrics, including polyurethane, PVC, silicone, etc.

- They have been specifically designed for applications where high processing quality is essential.
- Food processing industry
- Processing conveyor systems
- Packaging technology

**ACCESSORIES:** Our comprehensive range of additional services and accessories covers everything required for safe and reliable system operation.

- For safe and secure system operation.
- Drive and deflection components
- Welding equipment
- Assembly solutions

**MODULAR CONVEYOR BELTS:** Made of polyethylene, polypropylene or polyacetal, they offer robust flexibility.

- With their modular design, they are the most convertible of belts.
- Easy to extend/shorten
- For direct contact with foodstuffs

**SPECIAL MACHINES:** We solve all your problems relating to process technology, based on expertise and years of practical experience.

- Real-world solutions for practical application.
- Curved conveyor systems
- Separating plants
- Made in Germany

**SEPARATING BELTS:** The elasticated silicone material allows for flexible width adjustment of the product over separating distance.

- Advanced solution for special applications.
- Product separation
- Product combination
- With anti-stick surface

**Do you want to make progress?**

Please let us know!

We are happy to answer your questions, provide additional material or make you a non-binding offer.
